We are looking for highly motivated and enthusiastic candidates with a PhD in the Biomedical field, interested in pursuing a postdoctoral research in Neuroscience in the laboratory of Dr. Aixa Morales at the Cajal Institute.

The candidate will work in adult and developmental neurogenesis in the hippocampus and will use different models and techniques, including region-specific knockout mice, genome-wide analysis, neurospheres culture and animal behavioral test.

**Requisites:**
- To have a PhD obtained between the 1st of January, 2017 and the 31st of December, 2018.
- The candidate will apply for Juan de la Cierva-formación contracts of the Spanish Ministry of Science, Innovation and Universities from the recent call. More information can be found at: [http://bit.ly/2TFFoxG](http://bit.ly/2TFFoxG)

- Research experience in Molecular Biology and mouse models will be valued.

**Interested candidates should contact us before the 28th of January, 2019.**

**Selected publications:**
